

Instructions for "Accordion Photo Album"

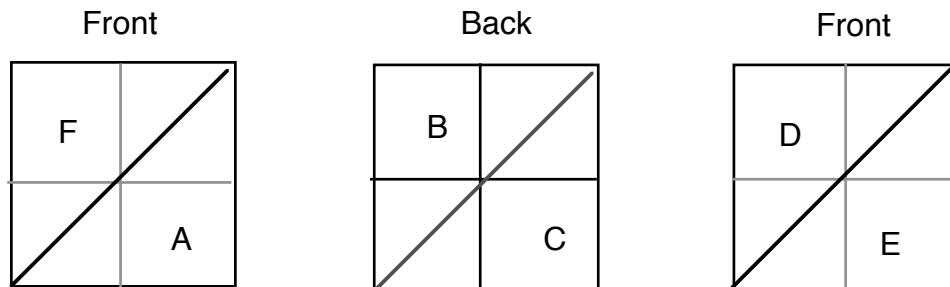

1. Cut two pieces lightweight cardboard 4-1/2" x 4-1/2" (Cereal box works well)
2. Cut two pieces patterned paper 5"x 5" and cover cardboard to create the **front and back covers**.
3. Cut three pieces card stock 8-1/2" x 8-1/2". Follow folding directions for "basic accordion square"

Basic accordion square:

1. Fold paper in half lengthwise.
2. Open; fold paper in half widthwise.
3. Open; fold paper in half diagonally. **Diagonal fold should be in opposite direction of other folds.** Open.
4. Grab corners A and B and bring them together, allowing paper to fold on diagonal crease. At the same time allow sides C and D to collapse on top of one another. This creates the basic "accordion" square.
5. Repeat steps 1 - 4 with two more squares of card stock.

Lay out the three creased card stock squares and attach to one another as follows:

With glue stick and without rotating direction of paper, attach **backside** of section A to front of section B; attach **front side** of section C to backside of D; If desired, attach ribbon or fastener to wrong side of back cover; attach front and back covers to **backsides** of sections E and F. Photo album can now be embellished as desired.
