

Missionary Tag

Have everyone pair up and link arms in your league except for two people. Out of those two, one will be 'it' and the other has to avoid being tagged by the person who is 'it'. The free person has to run and try to link arms with one of the pairs. Once linked they are safe, but the person on the opposite end of the pair is no the runner and has to avoid being tagged by the person who is 'it'. If tagged, they become the 'it' person. They have to chase whoever is free and they can immediately tag the person who just tagged them. The game can go on for as long as the participants want to play (Most people know how to play this game, so if your aren't quite clear on how to play ask one of your participants).
