

## Word within a word

### **Object:**

Find 10 new words within each word card and get through as many cards possible in the time allotted.

### **How to Play:**

The participants stand in a line, and two at a time, run down to a designated spot where the word cards are (a counselor needs to be at that end to supervise, make sure they are finding 'real' words and hand out the next word card). The participants have to find 2 words within that word...use the letters of the original word to make a different word. The team has to find 10 words within the word before moving on to the next card. The team that gets through the most word cards (or all the cards first) wins.

Words: Tournament, Relationship, Testimony, Medication, Responsibility, Entertainment, Recommendation, Perishability, Aromatherapy, Superheavyweight

### **1. Giant Twister**

You know the game! Twist it up! We could make big twister boards out of sheets and spray paint the color dots on.
