

The minister's cat

Everyone will sit in a circle. Have everyone start clapping their hands to the same beat (it is best if you start with a slow beat). Once everyone is clapping to the same, steady beat, begin to say with the beat, "The minister's cat is a _____ cat." Begin with filling the blank with words that start with the letter 'A'. Start with one person in the circle, and once the person completes the sentence to the beat, move on to the next person. For example, one person will say, "the ministers cat is an awesome cat" then without skipping a beat the following person will say, "the minister's cat is an awful cat" and so on. Once someone messes up, then they are out and the next person begins again, but this time filling the blank with a word beginning with 'B', you will progress through the alphabet as the game goes on.
